Dear Pamela Monroe,

As a resident of New Hampshire I hope the SEC will reject Northern Pass's certificate.

Eversource and Hydro Quebec have both said they aren't paying for the project which raises the question whether either of the companies have the financial capability to build and operate this \$1.6 billion project. The transmission towers and lines are going to have a horrible effect on the landscape, historic sites, and the environment in New Hampshire. The transmission line also will not serve our state, as it merely passes through New Hampshire.

I hope the committee will reject this project's certificate to prevent it from harming our state.

Thank you. Make your comments as personal as possible. Tell the SEC members why you personally oppose Northern Pass. Make your comments as personal as possible. Tell the SEC members why you personally oppose Northern Pass. If you need current information about Northern Pass, the posts on Judy's Blog on this website are a good source. <https://www.protectthegranitestate.org/judys-blog/There's> no word limit, but shorter is always better. And make sure to have a subject that clearly states you are against Northern Pass.

Sincerely,
Tina Gignac
